

Foster Care Agreement

Thank you for caring about our Weimaraners in need and welcome to our foster care family. Being a foster home means giving love, encouragement, and unqualified acceptance. Because of your caring, this dog will now be placed in the loving, responsible home that is deserved from the start. The Weimaraner that you are fostering has been checked by our vets and has or will received the following care:

- Rabies
- DHPP (*Distemper, Hepatitis, Parainfluenza & Parvovirus*)
- Leptospirosis (*Bacterial disease that affects humans and animals*)
- Bordetella (*Kennel Cough Preventative*)
- Heartworm Test (*and on monthly preventative unless noted otherwise*)
- Fecal Test or Treatment (*for hook, round, tape & whip worms*)
- Spayed/Neutered
- Microchipped

By providing your home as a foster home, you can evaluate the dog's personality and disposition around family members and other pets. This will help determine what type of adoptive home is needed. Your evaluation of the dog, and the suitability of the prospective adoptive family, is invaluable to the dog's placement. Do not hesitate to voice your observations and concerns about a family that may be interested in adopting.

Rules for Fostering:

1. Your foster should never be allowed off leash unless it is in the safety of your fenced yard with locked gates.
2. Always keep the collar with the rabies and rescue tag on the dog. If transporting your foster, a Martingale collar is recommended. Do not utilize a flat buckle collar as dogs can easily back out of this type of collar. If you are experiencing pulling behaviors with your foster, please contact the rescue trainer for resource assistance. If you choose to use a slip/choke chain collar, please remember that this type of collar may be fatal for the dog if left unattended, as dogs can hang themselves if left unattended in a choke collar.
3. Please feed only the food and amounts recommended (Taste of the Wild, Blue Buffalo, Costco Kirkland's, or Nature's Recipe). No table food, please!
4. If a crate has been provided to you, please be sure to use it when the dog is to be left alone. This will ensure the dog's safety as well as the safety of your home.
5. Should the dog you are fostering become ill, please notify your Foster Home Coordinator immediately. We prefer to take our rescues to our vets who know their history. In the case of an extreme emergency, such as an accident or bloat, take the dog immediately to the nearest available emergency clinic and contact your Foster Home Coordinator immediately.
6. Do not allow anyone to take the dog from its foster home. The potential adopters are welcome to come visit, but they are instructed to call their Adoption Coordinator for the adoption and release process.
7. If for any reason a previously adopted WRT dog is returned to your possession, you must notify the WRT Board and/or Foster Home Coordinator immediately to determine where the dog will be placed for foster care until it is adopted.
8. If for any reason you are experiencing behavioral issues with your foster, please contact Julie Roller at jewelintexas78@gmail.com.

I AGREE TO INDEMNIFY AND HOLD HARMLESS WRT, ITS OFFICERS, DIRECTORS, EMPLOYEES, VOLUNTEERS, AGENTS, AND REPRESENTATIVES FOR ALL MANNER OF ACTIONS AND CAUSES OF ACTIONS, SUITS, DEBTS, DUES, ACCOUNTS, BONDS, COVENANTS, CONTRACTS, AGREEMENTS, JUDGEMENTS, CLAIMS, AND DEMANDS WHATSOEVER ARISING OUT OF MY POSSESSION AND PLACEMENT OF THIS DOG. Unconfirmed and unverified information has been voluntarily provided to WRT, but no investigation has been undertaken regarding the history or physical condition of the dog, its background, suitability, or compatibility. I also agree to surrender the dog to WRT at any time if requested, and I agree to release the dog to WRT only. This Agreement will be in effect for all WRT dogs taken into your home and will need to be renewed on an annual basis.
